Ferno Oxy-Clip2™ Spring Loaded Oxygen Bottle Holder

- Works with the EZ Glide™ Stair Chair
- Made of lightweight aluminum with a nylon webbing and zinc die cast/nickel plated D-ring fasteners
- Spring-loaded mechanism for quick attachment and removal
- Will hold a D-size oxygen bottle in place during transport freeing up the operator's hands improving both safety and patient care

0821977   Ferno OxyClip2™ for 59-T and 59 EZ Glide

Ferno X-O$_2$ Oxygen Mounting System

- Works with a 35-P
- The X-O$_2$ System can utilize "D"- or "E"-size oxygen bottles   The patient surface-mount control center allows for either a low flow (with flow control from 0 to 25 LPM) or high flow connection in support of patient care

CA5320 Ferno X-O$_2$ for 35-P

Surface mount flow control

Ferno Oxygen Cylinder Holder

- Works with either a PROFlexx 35-P or 93-P
- Can carry a "D" size, "Jumbo-D", or a FernO$_2$ DD-lite
- FernO$_2$ DD-lite is also compatible

0819958   for 35-P
0821947   for 93-P

Ferno Oxy-Clip™ Cylinder Holder

- Fits on the cot side rail (19mm diameter)
- Securely holds either steel or aluminum "D" size cylinders
- Spring-loaded latch enables the Oxy-Clip™ to instantly attach to the cot rail
- When transferring the patient to the hospital bed, the Oxy-Clip™ simply rotates down and out of the way as the cot side rail is lowered
- Will not accept Jumbo "D" size cylinder
